Subject: Docket 2020026-SU Environmental Utilities, LLC Application to Install Sewers in Cape Haze, FL

Dear Commissioners,

I am writing to you to ask you to reject the application by Environmental Utilities, LLC (EU) to install sewers in the Cape Haze subdivision in Charlotte County.

EU is a startup company without the requisite experience to manage the projected sewer system construction and subsequent operation. They have not demonstrated, to the affected areas, that they have the necessary financial wherewithal to build out this system and then manage it on an ongoing basis. Further, they have no firm idea as to the cost of the system or the costs to the individual homeowners. No provision is being made to allow those residents who would be hurt financially to make payments over time. Nor is there any information available to us about any grants to defray the costs to us.

Cape Haze is in the Charlotte County Utilities (CCU) service area, and as such, if sewers are to be installed they should be done under the auspices of CCU. However, I dispute the generalized findings in the 2017 Charlotte Sewer study as to the need to remove our septic tanks and replace them with sewers.

Thank you for your assistance.

Sincerely,

Jeffrey Franken

Importance: High

re: Docket 2020026-SU Environmental Utilities, LLC (EU) to install sewers in the Cape Haze subdivision of Charlotte County.

Dear Commissioners,

I write regarding the above referenced application to install sewers in our subdivision, Cape Haze. Many, if not most, of the residents are over 60 and can ill afford this expense, especially in a year when we are trying to recover from experiencing COVID-19, closing a business for many months (eight months in my case) and having little, or no, income, or both. In my personal case, both.

I will appreciate the Board voting down this proposal. When we built our home we had to install, at great expense, an engineered septic.

I can ill afford another major expense and believe I speak for many, if not most, of my neighbors.

Thank you, in advance, for voting FOR the citizens you represent and against the concerns of outsiders.

It won't be forgotten.

Sincerely,
Barbara Helvey-Hughes
