Subject: Duke energy

Why do I have to pay to be a customer of Duke energy? Why am I paying for Duke energies security? Why is the public service commission allowing this? It's obvious the PCS does not have the publics best interest in mind. What government agency does the PCS report to?

Duke energy is a profitable company, there is no reason I should be paying \$11 for a customer charge and \$2.98 for their security. When I go grocery shopping I'm not slapped in the face with a charge for shopping. I'm not asked to pay publix air conditioning bill after my groceries are bagged so why these charges? Who voted for this? It's time for change. The next time Duke Energy wants to come on my property to read my meter I will be charging them a \$13.98 admission fee to be allowed to step on my grass. That sounds ridiculous doesn't it? Point made.

Jason VanWormer
A disappointed registered voter and tax payer.

We are opposed to rate increases for electricity. Sumner Electric's rates are so much more reasonable. There is no reason why Duke should be higher. If anything their size should make their rates lower, economies of scale and all. This is just greed at work.
