Company for Rate Unification and for Base

Docket No. 20210015-EI

Filed: April 6, 2021

**FLORIDA POWER & LIGHT COMPANY'S REQUEST FOR CONFIDENTIAL
CLASSIFICATION OF CERTAIN INFORMATION PROVIDED IN ITS
SUPPLEMENTAL RESPONSES TO OPC'S FIRST REQUEST FOR PRODUCTION
OF DOCUMENTS AND OPC'S FIRST SET OF INTERROGATORIES**

Pursuant to Section 366.093, Florida Statutes, and Rule 25-22.006, Florida Administrative Code, Florida Power & Light Company ("FPL") requests confidential classification of certain information provided in its supplemental responses to OPC's First Request for Production of Documents and OPC's First Set of Interrogatories (the "Confidential Information"). In support of its Request, FPL states as follows:

1. FPL served its supplemental responses to OPC's First Request for Production of Documents ("POD") and OPC's First Set of Interrogatories ("INT") on April 6, 2021. This request is being filed contemporaneously with service of those supplemental responses to request confidential classification of certain information contained in its response to OPC's First Request for Production of Documents Nos. 12-17, 35, 36, 44, 45, 48-50, 52, 57, 64 and 67, and OPC's First Set of Interrogatories Nos. 48, 49, 54-56, 67, 68, 93- 96, 111, 112 and 115, consistent with Rule 25-22.006, Florida Administrative Code.

2. The following exhibits are included with and made a part of this request:

a. Exhibit A consists of a copy of the confidential material on which all of the information that FPL asserts is entitled to confidential treatment has been highlighted. Attachments to OPC's First Request for Production of Documents, Nos. 12-15, 35, 36, 50, 52, 64 and 67 are voluminous and confidential in their entirety, and they are being provided electronically on disc.

b. Exhibit B consists of a copy of the confidential documents, on which all the information that is entitled to confidential treatment under Florida law has been redacted. For the documents that are confidential in their entirety, FPL has included only identifying cover pages in Exhibit B.

c. Exhibit C is a table that identifies by column and line the information for which confidential treatment is being sought and references the specific statutory basis for the claim of confidentiality. Exhibit C also identifies the declarants who support the requested classification.

d. Exhibit D contains the declarations of the individuals who support the requested classification.

3. The Confidential Information is intended to be and has been treated by FPL as private, its confidentiality has been maintained, and its disclosure would cause harm to FPL and its customers. Pursuant to Section 366.093, such materials are entitled to confidential treatment and are exempt from the disclosure provisions of the public records law. Thus, once the Commission determines that the information in question is proprietary confidential business information, the Commission is not required to engage in any further analysis or review such as weighing the harm of disclosure against the public interest in access to the information.

4. As described in the declarations included as Exhibit D, the Confidential Information consists of proprietary confidential business information, the disclosure of which would cause harm to FPL's customers and its business operations. Specifically, some information contains data that is proprietary to third party vendors and subject to non-disclosure agreements, while other information contains affecting competitive interests of FPL such as credit agency ratings. Other confidential information consists of internal audits. The responses also contain

information concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms, for example some responses contain loan agreements. This information is protected by Sections 366.093(3) (b), (d) and (e) Fla. Stat.

5. Upon a finding by the Commission that the Confidential Information is proprietary confidential business information, the information should not be declassified for a period of at least eighteen (18) months and should be returned to FPL as soon as the information is no longer necessary for the Commission to conduct its business. See§ 399.093(4), Fla. Stat.

WHEREFORE, for the above and foregoing reasons, as more fully set forth in the supporting materials and declarations included herewith, FPL respectfully requests that its Request for Confidential Classification be granted.

Respectfully submitted,

FLORIDA POWER & LIGHT COMPANY

10 RESPONSE:

11 To the extent OPC's First Interrogatory No. 49 requests information related to Gulf's operations
12 in 2016, 2017, and 2018, FPL affirmatively states that when it was served with this interrogatory,
13 it did not possess the information needed to answer the interrogatory. FPL therefore requested
14 the information from Southern Company, the former parent of Gulf, so that FPL could provide
15 an answer to this interrogatory to the extent that responsive information was obtained from
16 Southern Company. Based upon the information received from Southern Company, FPL
17 responds as follows:

18 Non-bargaining annual wage rate increases are typically awarded in the first quarter of the year.

amidst the uncertainty surrounding the ongoing pandemic, NextEra Energy's strategic focus, including its decades-old commitment to credit remains unchanged

Key Updates – September 2020

COVID-19 Pandemic – FPL and Gulf Power

- FPL and Gulf Power saw initial declines in non-weather usage due to the pandemic that now appear to be rebounding in 3Q
- While late payments are slightly higher than normal, the levels are generally in line with previous recessions; similarly, we expect a decline in receivables as disconnections resume
- As of June 30, FPL's total arrears were \$93.8 MM, of which \$15.8 MM of total uncollectible provision of \$22 MM is estimated to be incremental pandemic-related bad debt expense (estimated to be \$47 MM at YE 2020⁽¹⁾); for 1H 2020, FPL's operating revenues and cash flow was \$5.4 B and \$2.5 B

FPL's Hydrogen Pilot Project

- Rebecca Kujawa, EVP and CFO of NEE, shared FPL's plans to propose a hydrogen pilot project⁽²⁾ during NextEra's 2Q 2020 earnings call on July 24
- This approximately \$65 MM pilot project (expected in service in 2023) will utilize solar energy that would have otherwise been clipped to produce 100% green hydrogen through a roughly 20 MW electrolysis system; the hydrogen will replace a portion of the natural gas consumed by one of the Okeechobee Clean Energy Center's three gas turbines
- To achieve an emissions-free future – 'zero' not 'net-zero' – we believe other technologies will be necessary, and we are particularly excited about hydrogen's long-term potential
- This *'toe in the water'* approach remains a consistent hallmark of NEE's strategy with all new technologies and businesses, as well as what we utilized with solar and battery storage
- Call scheduled with S&P and NEE hydrogen subject matter expert: Friday, October 2 at 11 AM

In re: Petition by Florida Power & Light Company
for Rate Unification and for Base Rate Increase

Docket No: 20210015-EI

DECLARATION OF ROBERT E. BARRETT

1. My name is Robert E. Barrett. I am currently employed by Florida Power & Light Company ("FPL") as Vice-President, Finance. I have personal knowledge of the matters stated in this written declaration.

2. I have reviewed the documents referenced and incorporated in FPL's Request for Confidential Classification, specifically the materials provided in response OPC's First Request for Production of Documents Nos. 12-17, 35, 36, 50 and 52. The documents or materials that I have reviewed and which are asserted by FPL to be proprietary confidential business information contain competitive business information the disclosure of which would impair the competitive business of the provider of the information, as well as information concerning bids or other contractual data, the disclosure of which would impair the efforts of FPL to contract for goods or services on favorable terms. Specifically, the information relates to credit agency ratings and loan agreements. To the best of my knowledge, FPL has maintained the confidentiality of these documents and materials.

3. Consistent with the provisions of the Florida Administrative Code, such materials should remain confidential for a period of not less than 18 months. In addition, they should be returned to FPL as soon as the information is no longer necessary for the Commission to conduct its business so that FPL can continue to maintain the confidentiality of these documents.

4. Under penalties of perjury, I declare that I have read the foregoing declaration and that the facts stated in it are true to the best of my knowledge and belief.

2. I have reviewed the documents referenced and incorporated in FPL's Request for Confidential Classification, specifically the materials provided in response OPC's First Request for Production of Documents Nos. 35, 44, 45, 64 and 67 and to OPC's First Set of Interrogatories Nos. 93-96, 111, 112 and 115. The documents or materials that I have reviewed and which are asserted by FPL to be proprietary confidential business information contain information concerning bids or other contractual data (insurance contracts), the disclosure of which would impair the efforts of FPL to contract for goods or services on favorable terms. The responses also contain proprietary confidential business information regarding corporate income taxes. Specifically, the material contains tax returns and schedules, including pro forma tax documentation incorporated into Nextera Energy's tax return, which is confidential pursuant to 26 U.S.C. § 6103. To the best of my knowledge, FPL has maintained the confidentiality of these documents and materials.

3. Consistent with the provisions of the Florida Administrative Code, such materials should remain confidential for a period of not less than 18 months.
