April 23, 2021

Ms. Elisabeth Draper
Chief of Economic Impact & Rate Design
Florida Public Service Commission
Bureau of Electric Regulation
Division of Electric and Gas
2540 Shumard Oak Boulevard
Tallahassee, FL 32399-0850

Dear Ms. Draper,

Orlando Utilities Commission ("OUC") hereby electronically submits one copy in legislative form and one copy in final form of the following sheet for insertion into its Tariffs currently on file with the Florida Public Services Commission ("FPSC"):

Tariff Sheet No. 5.925

Pursuant to the OUC/City of St. Cloud Inter-local Electric Service Agreement, OUC is also electronically submitting on behalf of the City of St. Cloud, one copy in legislative form and one in final form of the following revised sheet for insertion into the City of St. Cloud's Tariffs currently on file with the FPSC:

Tariff Sheet No. 7.925

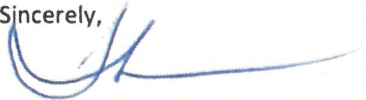

As OUC feels none of these changes affect the rate structure of OUC as defined in Rule 25-9.0252 F.A.C., no approval by the FPSC has been requested by OUC at this time. Rather, OUC has treated these changes as administrative in nature and, therefore, appropriate for FPSC Staff review. Please advise me if you make a determination otherwise.

Elisabeth Draper

On April 13, 2021, OUC's Board approved a change, effective July 1, 2021 to the Community Solar Farm Rider Rate Schedule ("CSFR2"). This Rider, which is available on a voluntary basis to all customers, is intended to reflect OUC's cost of utility scale solar. Under this Rider customers may elect to receive up to 100 percent of their monthly energy from OUC's solar energy resources. Charges associated with this Rider will be lowered from a rate of 6.000¢ per kWh to 4.500¢ per kWh to reflect OUC's current cost of utility scale solar. In accordance with the Inter-local agreement between OUC and St. Cloud, St. Cloud's rate of 6.240¢ per kWh will be lowered to 4.680¢ per kWh and is equal to OUC's rate plus a 4% adder. Both OUC's and St. Cloud's customers will continue receiving a fuel charge credit equal to the fuel charges applicable under their utility bill, multiplied by their subscription percentage.

If you have any questions, please do not hesitate to call Lawrence Strawn, Manager of Corporate Analytics and Planning, at (407) 434-2187.

Sincerely,

W. Christopher Browder
Chief Legal Officer

Ms. Mindy Brenay
Mr. Bill Sturgeon

CSFR2

**COMMUNITY SOLAR FARM RIDER
RATE SCHEDULE CSFR2**

Availability:

Available throughout the entire territory served by OUC to OUC electric customers that meet the Eligibility Requirements. This rider will be closed to further subscription by eligible customers when OUC's solar resources are retired or **are fully subscribed**. Total residential subscriptions **shall not exceed 20 percent of OUC's community solar resources and general service subscriptions shall not exceed 80 percent**. However, if after the rider is closed any previously subscribed energy becomes available due to the forfeiture by a prior subscriber of such energy, OUC may re-open the subscription process from time to time until such energy is again subscribed. Any such energy will be offered first to any customers remaining on the energy subscription wait list, followed by an offering to the remainder of OUC's eligible customers.

Applicability:

This rider is applicable on a voluntary basis to customers receiving service under rate schedules RS, GS, GSD-SEC or GSD-PRI that meet the special provisions of this rider.

Character of Service - % Subscription:

Customers may subscribe to receive between 10 percent and 100 percent of their monthly energy from OUC solar energy resources under this rider. Customer subscriptions to receive monthly energy from OUC solar energy resources shall be in 10 percentage point increments.

Definition of Solar Energy:

Total kWh consumption for the billing period times solar subscription percentage rounded to the nearest kWh.

Monthly Rate:

The subscribing customer's otherwise applicable rate schedule for electric service will apply to calculate the total bill for the billing period, but shall be adjusted under this rider as follows:

$$[Total\ Bill] - ([Fuel\ Charge] \times [\% \text{ Subscription}]) + (Consumption \times [\% \text{ Subscription}] \times [Community\ Solar\ Energy\ Rate])$$

Community Solar Energy Rate: **4.500¢** per kWh of solar energy

Special Provisions

1. Eligibility Requirement:
 - a. May not be a participant in the following OUC programs while subscribing under this rider:
 - i. Budget Billing
 - ii. Solar PV Program
2. Customers may enroll at any time but must remain enrolled for at least one (1) billing period after enrollment. A customer may cancel thereafter with 30 days' notice and enroll again at a later date if the program is still open.
3. All requirements under the customer's applicable rate schedule for electric service will apply under this schedule.

CSFR2

**COMMUNITY SOLAR FARM RIDER
RATE SCHEDULE CSFR2**

Availability:

Available throughout the entire territory served by OUC to OUC electric customers that meet the Eligibility Requirements. This rider will be closed to further subscription by eligible customers when OUC's solar resources are retired or are fully subscribed. the total residential subscriptions shall not exceed 20 percent of OUC's community solar resources and general service subscriptions shall not exceed 80 percent, reaches 2,770,000 kWh and the total commercial subscription reaches 13,830,000 kWh; provided, hHowever, that if after the rider is closed any previously subscribed energy becomes available due to the forfeiture by a prior subscriber of such energy, OUC may re-open the subscription process from time to time until such energy is again subscribed. Any such energy will be offered first to any customers remaining on the energy subscription wait list, followed by an offering to the remainder of OUC's eligible customers.
