Subject: FPL rate increase

I believe that you approved a rate increase that would amount to 18% over four years. That is a undue financial hardship for a large number of customers and an increase out of proportion for everyone else.

COMPLAINT INFORMATION

Complaint: Other Complaint against Florida Power & Light Company

Details:

Dear PSC - I understand that FP&L is asking for a \$2 billion dollar increase in the base rate of our utility bills over the next four years. This means that the average cost of our electricity would rise by 18% over the next four years which is 4.5% per year. For those of us who are on fixed incomes, this would be a very costly increase. With interest rates at historic lows, we will not keep up with inflation which is expected to go through the roof given the reckless, irresponsible spending of the federal government. This increase asked by FP&L will hit seniors hard and may well mean choosing between paying the utility bill vs. paying for medications or whether we see a doctor or not. This is the reality for many of us in the 65 and above age range. PLEASE consider this when you review the request before you. Thank you for your time and attention in this important matter to those of us trying to just live on SS and retirement funds. Gary R. Cox, Cantonment, FL

Subject: Shameful to have such a rate hike in the middle of global pandemic!

Re: Docket No. 20210015-E1

Please reject the horrible plan to increase our rates so dramatically! Many people in St. Johns county are new to our homes with new mortgage payments and expenses, and didn't plan for such a hike in fees. **Plus not all of us feel that strongly about clean energy, it should be something that only the people who wish to participate opt in to do, not be forced on all of us.** And to increase our rates just to match Gulf Power is so wrong. As you may know our St. Johns County Teco gas bill rates also recently increased. It is so unfair to keep increasing all our bills like this, it's just WRONG! We are in the middle of a global pandemic and there are so many uncertainties at the moment so to use this time to drastically increase rates is just shameful!! Please reject the proposed rate increase plan entirely!

FP&L is requesting a rate increase of about 18% over the next 4 years. I am disabled and cannot afford such an increase. My electric bill now is almost \$400 a month. My only income is my SS disability check which barely get me by.

Please do not approve this increase.

Respectfully
Dan Criss

Subject: Utility Complaint

Ladies/Gentlemen:

I am writing you in regard to the proposed FPL rate hike of 18% over the next 4 years. As a retired Nurse, I among millions of other Floridians is on a fixed income, the state has already seen multiple increases over the past years with no end in site. FPL is asking for a 2 BILLION dollar increase in the base rate over a 4 year period, 2 BILLION....how can any corporation ask for 2 BILLION over 4 years....if anyone else in the business world asked for that type of price increase one would be examining the CEO!!!

PLEASE, PLEASE listen to the people of this fine state and consider, really consider what they are asking.

Thank you,

Sally Conley

COMPLAINT INFORMATION

Complaint: Other Complaint against Florida Power & Light Company
Details:

Florida Power & Light is asking for a total increase of \$2 billion in the base rate over the next four years.

Floridians on fixed incomes (myself included) are already worried about housing and drug costs. Average bills would go up 18% over the four years. We can't afford to be paying higher energy costs as well. We are asking that the rate hike be denied or substantially reduced and spread out over a longer period to reduce the impact on Florida's seniors.

Regards
Barbara Jack
