Subject: Docket No. 20200181; Modernize Florida's outdated energy savings practices

Dear Commissioner Andrew Fay,

We need better efficiency standards for Florida's utilities. We have granted these utilities monopoly status, and in return they must help meet the needs of Florida's residents and businesses. Energy efficiency helps our economy by employing thousands of Floridians and reducing operating costs for businesses. It also is good for the environment, as much of our state's air and water pollution comes from electricity production. Please mandate that our utilities do better, as they are way behind most of the nation. Thank you!

Christian Wagley, Pensacola, FL

Sincerely,  
Christian Wagley
