Subject: RE: Stop Rubber Stamping FPL Requests!

Good Afternoon, Ms. Morris.

We will be placing your comments below in consumer correspondence in Docket No. 20210015, and forwarding them to the Office of Consumer Assistance and Outreach.

Thank you!

Toni Hover

Subject: Stop Rubber Stamping FPL Requests!

Dear Commissioner

Solar energy is less expensive not more expensive. FPL has already received increases to help pay for solar equipment and building solar farms.

Utilities are supposed to be serving the public. These kinds of increases are equal to price gouging, which in the state is illegal!!

Florida Power & Light is asking for the largest single rate hike in Florida history at a time when consumers are facing an increased cost of goods and services as we recover from the economic downturn caused by COVID-19. Increasing the cost of electricity is something you, the Public Service Commission, can control.

It is unconscionable to think that we should have to pay more for our electric service at a time like this. Rubber stamping an all-time high return on equity of 11.5 percent goes against helping struggling Floridians. Putting people over profits should come first.

Now is not the time to give FPL what it wants; let's keep the public in Public Service Commission!

Thank you,

Madelyn Morris
