Subject: RE: Stop Rubber Stamping FPL Requests!

Good Afternoon, Mr. Pollak.

We will be placing your comments below in consumer correspondence in Docket No. 20210015, and forwarding them to the Office of Consumer Assistance and Outreach.

Thank you!

Toni Hover

Subject: Stop Rubber Stamping FPL Requests!

Dear Commissioner

Florida Power & Light is asking for the largest single rate hike in Florida history at a time when consumers are facing an increased cost of goods and services as we recover from the economic downturn caused by COVID-19. Increasing the cost of electricity is something you, the Public Service Commission, can control.

Your agreeing to large corporations on issues that increase their additional (free) income provided by their (restricted) customers becomes a hit to our financial stability. We are already seeing the effects of wasteful spending by our current national government via unrestricted inflation. Financial survival is becoming especially difficult for anyone who is retired and/or on fixed income.

It is unconscionable to think that we should have to pay more for our electric service at a time like this. Rubber stamping an all-time high return on equity of 11.5 percent goes against helping struggling Floridians. Putting people over profits should come first for you at the PSC. We ask you to say NO! to FPL's runaway profit requests.

Now is not the time to give FPL what it wants; let's keep the public in Public Service Commission!

Thank you,

Robert Pollak
