Dear Commissioner

Florida Power & Light is asking for the largest single rate hike in Florida history at a time when consumers are facing an increased cost of goods and services as we recover from the economic downturn caused by COVID-19. Increasing the cost of electricity is something you, the Public Service Commission, can control.

An all-time high return on equity of 11.5 percent seems outrageous and goes against helping struggling Floridians. Putting people over profits should come first. Your ads tout one of the lowest rate structures. Let's keep it that way.

Now is not the time to give FPL what it wants; I implore you to do your job and keep the public's interest ahead of increased profits for FPL.

Thank you,
