Subject: Stop Rubber Stamping FPL Requests!

Dear Commissioner

Florida Power & Light is asking for the largest single rate hike in Florida history at a time when consumers are facing an increased cost of goods and services as we recover from the economic downturn caused by COVID-19. Increasing the cost of electricity is something you, the Public Service Commission, can control.

It is unconscionable to think that we should have to pay more for our electric service at a time like this. Rubber stamping an all-time high return on equity of 11.5 percent goes against helping struggling Floridians. Putting people over profits should come first.

Now is not the time to give FPL what it wants; let's keep the public in Public Service Commission!

What's going on with all the solar panel fields that were supposed to lower our costs. I'm not

comfortable paying more for power glitches in our neighborhood where there's too many homes on one transformer. This is an age old problem and you're entitled to a cost of living increase just like the rest of us. But a monopoly and big business go home. Get real. Quit following the get rich bureaucrats and treat people fairly.

Thank you,

Richard Loucks
