Good Afternoon,

We will be placing your comments below in consumer correspondence in Docket No. 20210015-EI and forwarding your comments to the Office of Consumer Assistance and Outreach.

Sincerely,

Brian Schultz

Commission Deputy Clerk II
Florida Public Service Commission

Subject: Stop Rubber Stamping FPL Requests!

Dear Commissioner

Having been granted a monopoly in Florida, comes with responsibilities and FPL should not have the right to provide a guaranteed ROE of 11.5% to investors by increasing prices. There is a lot of savings potential inside FPL and cutting overhead costs such as exorbitant bonuses can provide an increased ROE. FPL is a company that is supposed to serve the public, and not its self-interest. A utility company should be a non-profit to begin with.

Florida Power & Light is asking for the largest single rate hike in Florida history at a time when consumers are facing an increased cost of goods and services as we recover from the economic downturn caused by COVID-19. Increasing the cost of electricity is something you, the Public Service Commission, can control.

It is unconscionable to think that we should have to pay more for our electric service at a time like this. Rubber stamping an all-time high return on equity of 11.5 percent goes against

helping struggling Floridians. Putting people over profits should come first.

Now is not the time to give FPL what it wants; let's keep the public in Public Service Commission!

Thank you,

Rainer Habermann
