**Subject:** Reject FPL Requests for a Rate Increase!

Dear Commissioner

Florida Power & Light is asking for the largest single-rate hike in Florida history. Florida customers are struggling more than ever to meet their basic needs. With the rapidly rising inflation, the increased cost of goods and services are escalating as we are struggling to recover from the economic downturn caused by COVID-19.

Increasing the cost of electricity is something you, the Public Service Commission, can control. Florida consumers need you to do the right thing. FPL has made a record profit during the pandemic. We should have to pay more for our electric service at a time like this. Rubber stamping an all-time high return on equity of 11.5 percent goes against helping struggling Floridians. Putting people over profits should come first.

Now is not the time to give FPL what it wants. We are counting on you to reject the rate increase and help consumers.

Thank you,

Tashia Gibbs
