Subject: Stop Rubber Stamping FPL Requests!

Dear Commissioner

Florida Power & Light is asking for the largest single rate hike in Florida history at a time when consumers are facing an increased cost of goods and services as we recover from the economic downturn caused by COVID-19. Increasing the cost of electricity is something you, the Public Service Commission, can control.

It is unconscionable to think that we should have to pay more for our electric service at a time like this. Rubber stamping an all-time high return on equity of 11.5 percent goes against helping struggling Floridians. Putting people over profits should come first.

How misleading that FPL is advertising how they provide lowest cost energy and have not increased rates when they are knocking at the door with these increases in the wings. It's disgusting and misleading! Please stop taking advantage of all Floridians, not just seniors, and say "NO" to FPL!

Now is not the time to give FPL what it wants; let's keep the public in Public Service Commission!

Thank you,

Eva Kelly
