Subject: Stop Rubber Stamping FPL Requests!

Dear Commissioner

Florida Power & Light is asking for the largest single rate hike in Florida history at a time when consumers are facing an increased cost of goods and services as we recover from the economic downturn caused by COVID-19. Increasing the cost of electricity is something you, the Public Service Commission, can control.

It is unconscionable to think that we should approve an all time high return on equity that is more than 2% higher than the national average. Putting people over profits should come first and this requested profit is inconsistent with the recovering economy.

Now is not the time to give FPL what it wants; let's keep the public in Public Service Commission. The time is now for the PSC to say 'NO' to FPL!

Thank you,

Cynthia Thomas
