**Subject:** Stop Rubber Stamping FPL Requests!

Dear Commissioner

Florida Power & Light is asking for the largest single rate hike in Florida history at a time when consumers are facing an increased cost of goods and services as we recover from the economic downturn caused by COVID-19. Increasing the cost of electricity is something you, the Public Service Commission, can control.

It is unconscionable to think that we should have to pay more for our electric service at a time like this. Rubber stamping an all-time high return on equity of 11.5 percent goes against helping struggling Floridians. Putting people over profits should come first.

Now is not the time to give FPL what it wants; let's keep the public in Public Service Commission!

I am a senior citizen on oxygen continuously. My oxygen has to run 24/7. My fixed income pays for my mortgage and my phone bill and that's it. I have to dig into my savings to pay the rest every month. I can't afford for any more increases. I have already given up the cable, dish, no going out to eat no outings with friends. If I don't have electric that means I die due to no oxygen. It's bad enough that CCU made us go on sewers and water. This is too much. No raises, you get paid well for what you do. That's what my boss told us when I was working and wanted 2% raise, so my vote is No.

Thank you,

Vicki Wright-Olesen
