Subject: Stop Rubber Stamping FPL Requests!

Dear Commissioner

Florida Power & Light is asking for the largest single rate hike in Florida history at a time when consumers are facing an increased cost of goods and services as we recover from the economic downturn caused by COVID-19. Increasing the cost of electricity is something you, the Public Service Commission, can control. So many senior citizens are struggling to cover living expenses and food. To have to pay for FPL's 'infrastructure' is obscene. Spectrum Cable is doing the same thing, burdening citizens with their infrastructure expansion costs. Gov. DeSantis has signed legislation to additionally burden the tax payers in this State with impact fees instead of having real estate developers pay their way. All of these costs passed onto citizens will cause financial distress to us all.

It is unconscionable to think that we should have to pay more for our electric service at a time like this. Rubber stamping an all-time high return on equity of 11.5 percent goes against helping struggling Floridians. Putting people over profits should come first.

Now is not the time to give FPL what it wants; let's keep the public in Public Service Commission!

Thank you,

Barbara Angelucci
