Subject: FPL

To whom it may concern,

I understand that FPL is asking for an increase of \$2 billion over the next 4 years. This would increase bills by approximately 18%. I can't imagine how I personally could absorb this additional cost in my monthly expenses. I am a retiree and living on social security, which puts me on a very tight budget. In addition, my grown daughters are already struggling to raise their families with increasing costs for food and fuel. It seems that every day costs for basic necessities are increasing. Please protect the residents of Florida!
