Dear Public Service Commission,

As a lifetime resident of Florida, I urge you to decline FPL's rate increase petition, which would create an unnecessary and excessive burden on utility customers at a time when many Floridians can least afford to pay more for their unavoidable daily expenses.

FPL is trying to charge customers like us for a range of projects we do not want or need. FPL does not need to spend billions of our dollars to build redundant fossil fuel units, rebuild an already-sufficient transmission system, and give their shareholders a raise. The cost of renewables are substantially cheaper so there is no reason why our rates should be increased.

Please do not put FPL's desire to maximize profits over our need to power our homes affordably.

Thank you!
Nicole Brostek

Sincerely,
Nicole Brostek
