Dear Public Service Commission,

As a resident of Florida, I urge you to decline FPL's rate increase petition, which would create an unnecessary and excessive burden on utility customers at a time when many Floridians can least afford to pay more for their unavoidable daily expenses.

FPL is trying to charge customers like us for a range of projects we do not want or need. FPL does not need to spend billions of our dollars to build any fossil fuel units, stop stifling SOLAR, and build on green energy products. YOU might have support then.

This nonsense must stop now. We need investment in Solar energy and FPL can benefit off of us after we have had time to recover from a pandemic that has harmed everyone. Get your pound of flesh after people get on their feet. Shareholders don't need a raise.

Please do not put FPL's desire to maximize profits over your citizens' need to eat, work, live and power our homes affordably.

Thank you!

Sincerely,
