I am a retired resident of Sarasota, Florida and would like to record my opposition to the proposed FPL increase. You approve these increases every year without consideration to the many seniors living on a fixed income. My electric bill has increased over 33% from June of last year! Both the fuel and non fuel rates were increased far in excess of the 1.3% cost of living social security gave us. Why do approve blanket increases every year, and why do they have to be so excessively above cost of living increases? I respectfully request that you deny FPL this proposed increased and give us a break from these rising costs!
