Dear Public Service Commission,

I HAVE NOTICED SINCE THE LAST FEW HURRICANES THAT THERE ARE VAGUE CHARGES THAT AMOUNT TO OVER HALF THE COST OF ELECTRIC. THIS SURCHARGE WAS ORIGINALLY ADDED TO OFFSET COSTS INCURRED FROM 2004 HURRICANES...AND THEN THEY NEVER WENT AWAY !
FPL ASKED US TO HELP SUBSIDIZE THEIR SOLAR DEVELOPMENT, MEANWHILE, WE CITIZENS IN FLORIDA GET HARDLY ANY INCENTIVE TO GO SOLAR...AND, TO MY KNOWLEDGE, WORN OUT PANELS ARE NOT BEING RECYCLED AND ENDING UP IN LANDFILLS!! NOT ECOLOGICALLY WISE !
WE NEED TO BETTER INCENTIVIZE PEOPLE AND BUSINESSES TO INVEST IN SOLAR HERE...FOR THE HEALTH OF ALL OF US AND THE ENVIRONMENT!!

WE, THE PEOPLE, DON'T WANT DIRTY, PLANET DAMAGING FOSSIL FUEL FORMS OF ENERGY INCLUDING NATURAL GAS AND A PERMANENT BAN ON FRACKING.
CHARGING EVEN MORE FOR SOMETHING WE DON'T WANT IN THE FIRST PLACE IS TANTAMOUNT TO A MONOPOLY, NOT TO MENTION ANTI ENVIRONMENT!

TIME IS NOW TO MAKE THE CHANGE TO IMPROVE THE PROGNOSIS FOR THE PLANET AND THE PEOPLE.
PLEASE REDUCE OUR RIDICULOUSLY HIGH ELECTRIC BILLS!
THANK YOU!

As a resident of Florida, I urge you to decline FPL's rate increase petition, which would create an unnecessary and excessive burden on utility customers at a time when many Floridians can least afford to pay more for their unavoidable daily expenses.

FPL is trying to charge customers like us for a range of projects we do not want or need. FPL does not need to spend billions of our dollars to build redundant fossil fuel units, rebuild an already-sufficient transmission system, and give their shareholders a raise.

Please do not put FPL's desire to maximize profits over our need to power our homes affordably.

Thank you!

Como residente de Florida, le insto a que rechace la petición de aumento de tarifas de FPL, que crearía una carga innecesaria y excesiva para los clientes de servicios públicos en un momento en que muchos floridianos no pueden pagar más por sus gastos diarios.

FPL está tratando de cobrar a clientes como nosotros por una variedad de proyectos que no queremos ni necesitamos. FPL no necesita gastar miles de millones de dólares para construir unidades de combustibles fósiles redundantes, reconstruir un sistema de transmisión que ya es suficiente y dar un aumento a sus accionistas.

Por favor, no anteponga el deseo de FPL de maximizar las ganancias a nuestra necesidad de alimentar nuestros hogares de manera asequible.

¡Gracias!

Sincerely,
Carolyn and Robert Wolf
