Subject: RE: FPL 20210015-EI Customer Service Hearing Comment

To Whom It May Concern:

As a resident of Sarasota, FL, I am recording my belief that the proposed FPL rate increase is warranted. I consider the increase to be an investment almost certain to generate tremendous returns for both current and future generations.

As a 45 year Florida resident who has experienced diverse weather events (hurricanes, record-setting temperatures, etc), FPL has always rendered the very best in services. Further, FPL's designation as "Best in Class" paralleled by FPL's current and proposed innovations (solar energy, transmission lines, natural gas centers, smart grid technology) accompanied by the intense need to develop effective cyber security protocols would be difficult to accomplish without the proposed rate increase.
