Reference: Docket No. 20210015-EI

Dear Sirs;

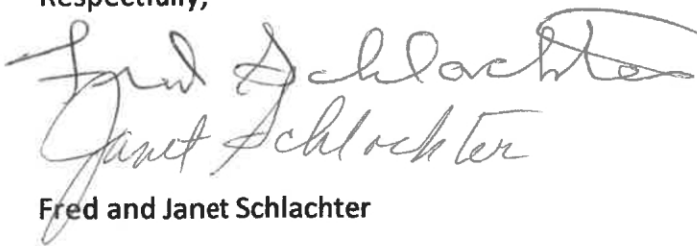

As elderly Florida residents living on fixed income, my wife and I strongly oppose the rate hikes that FPL are proposing,

We have been residents of Florida for the past 21 years and have seen the cost of living increase faster than the meager pay raises we get from social security and military retirement. Our income from fixed investments has not changed during those 21 years. In fact, we have had to reduce our fixed monthly income to ensure that the funds will still be available during our lifetime.

With food and medicine increasing as at obscene rate, we don't think that we should be burdened with the high energy bills being requested by FPL.

Please consider the plight of so many of us that moved to Florida to enjoy a way of life that Florida promised only to see our savings diminish with ever increasing energy bills.

Respectfully,

Fred and Janet Schlachter
