Good Morning, Mr. Moulton.

We will be placing your comments below in consumer correspondence in Docket No. 20210015, and forwarding them to the Office of Consumer Assistance and Outreach.

Thank you!

Toni Hover

Subject: Public Comment on Docket #20210015-EI

Dear Public Service Commission,

As a resident of Florida, I urge you to decline FPL's rate increase petition, which would create an unnecessary and excessive burden on utility customers at a time when many Floridians can least afford to pay more for their unavoidable daily expenses. Especially when we have paid for their advertised large solar farm where they get power from the sun built with tax payer money! Where are my solar panels and why do they get that money.

FPL is trying to charge customers like us for a range of projects they don't deserve. FPL does not need to spend billions of our dollars and give their shareholders a raise.

Our tax dollars provide advantages that small business never experiences. FPL attains funds for projects and then turns around and charges the tax payer. Does small business get this wonderful free for money, never! FPL has been in the pocket of the Florida Legislature for too long.

Please do not put FPL's desire to maximize profits based on their request for more of the same handouts.

Thank you!

David N. Moulton, A.I.A.

Como residente de Florida, le insto a que rechace la petición de aumento de tarifas de FPL, que crearía una carga innecesaria y excesiva para los clientes de servicios públicos en un momento en que muchos floridianos no pueden pagar más por sus gastos diarios.

FPL está tratando de cobrar a clientes como nosotros por una variedad de proyectos que no queremos ni necesitamos. FPL no necesita gastar miles de millones de dólares para construir unidades de combustibles fósiles redundantes, reconstruir un sistema de transmisión que ya es suficiente y dar un aumento a sus accionistas.

Por favor, no anteponga el deseo de FPL de maximizar las ganancias a nuestra necesidad de alimentar nuestros hogares de manera asequible.

¡Gracias!

Sincerely,
David Moulton
