Subject: Vote NO on Utility Rate Increases!

Dear Florida Public Service Commissioners,

Florida Power & Light (FPL) is planning to increase bills for their customers, which would impact us all. In addition to profiting off unsustainable global warming- polluting energy resources, FPL was one of several power companies that resumed- closing customer accounts due to non payment during the second wave of the- pandemic. The heatwave in the Pacific Northwest, the California wild-fires, and the Texas freeze are the alarm bells of the climate emergency. In the midst of rising temperatures, due to climate change, disconnecting people from their electricity is a matter of life and- death for many Floridians. We are demanding that Florida Power & Light halt this- unjust and -dangerous practice and that Florida's Public Service Commission require FPL to institute a disconnection policy during extreme heat, cold days, maintain fair rates for their consumers, and prioritize the communities that are- hit the hardest and on the frontlines of the climate,- pandemic, and economic crisis.

The climate crisis- threatens everything that Floridians hold dear, including our parks, our beaches, and our drinking water. Yet, Florida's largest utility companies want to build even more -dirty fossil fuel infrastructure and -raise our power bills to pay for it. This will only make seas rise higher, storms get stronger and- destructive, and days hotter and more- dangerous.

Floridians are just beginning to recover from a- pandemic that created financial -hardships for countless families and businesses. But right now, FPL is attempting the -largest rate increase in Florida history- locking customers into -higher bills by raising rates nearly 18-20%, -increasing fees and minimum monthly bills, and -denying customers helpful options to make bills more affordable. Approving a \$2 billion- rate increase now creates a crisis within a crisis for so many Floridians and the Public Service Commission should reject these requests.

Please prioritize Florida families and vote NO to- increasing utility rates!
(Prayers)

Sincerely,
Rachel Ellis
