Comments:

Please do not consider raising Tampa Electric rates. During this stressful time with COVID cases on the rise again many people are out of work and are behind in paying their bills. The Tampa Water dept. raised their rates, groceries and gas prices are inflated and now TECO wants a substantial rate increase. Please think of the residents of Florida who are already finding it difficult to pay all these increases. I am a retired senior and my homeowner's insurance rate just went up \$366 a year along with the other increases I mentioned. My State of Florida (I am a retired State of Florida employee) only goes up 2.48% a year and my Social Security a measly \$12 a month; hardly sufficient to keep up with all the rate increases so please vote NO on this. Soon people will be leaving Florida in droves because they cannot afford to live here anymore. Thank you !
