**Subject:** Docket No. 20200226-WS

Hello Commissioners,

I am writing in response to a letter from Mr. Martin S. Friedman, Esquire regarding Docket No. 20200226-WS. The website we were asked to look at and certify as a "true and correct copy" does not tell us if this document written in 2017 is the original with no revisions or amendments. When we had discussions about 5 years ago about Jack Boyer wanting to require everyone to hook up to his water system, Charlotte County planning documents in place were disregarded by Commissioner Truex and three other members of the Charlotte County commission to give Mr. Boyer what he wanted. I find it appalling that his attorney is asking us to "certify" that the document is a "true and correct copy" which possibly could have been changed by the commission again in Mr. Boyer's favor. I would like to ask you to obtain a copy of the original document that was filed by the Charlotte County Commission and the date of that filing. I would like to compare that document with what Mr. Friedman is asking all of us to certify by July 30, 2021 as the Master Plan.

Thank you for your assistance in this matter.

Sincerely,

William Lee Roberts
