Office of Commission Clerk  
Florida Public Service Commission

Dear Commission Clerk      **Act #: 20210034**

I am writing to object to the TECO proposed Electrical Increase. I am a pension on fixed income, and I cannot like many other Floridians afford another increase. Last one 2020

I propose that the Supreme Court's ruling that the Hillsborough 10% transportation tax was unconstitutional and that there be a give back. Some of these monies collected should be passed onto TECO to assist with their solar fund esp to Hillsboro customers as every household needs electric, but some of the current proposals ie: 100 free day will not benefit every household, not everyone is able to even get out to shop on those designated dates.

~~TECO~~ Florida cost of living already 5% higher than the national average. This state is becoming more & more less appealing to seniors like myself. Thank you for reading this
