Subject: Public Comment on Docket #20210015-EI

Dear Public Service Commission,

As a resident of Florida, I urge you to decline FPL's rate increase petition, which would create an unnecessary and excessive burden on utility customers at a time when many Floridians can least afford to pay more for their unavoidable daily expenses.

FPL is trying to charge customers like us for a range of projects we do not want or need. FPL does not need to spend billions of our dollars to build redundant fossil fuel units, rebuild an already-sufficient transmission system, and give their shareholders a raise.

Please do not put FPL's desire to maximize profits over our need to power our homes affordably.

Thank you!

Como residente de Florida, le insto a que rechace la petición de aumento de tarifas de FPL, que crearía una carga innecesaria y excesiva para los clientes de servicios públicos en un momento en que muchos floridianos no pueden pagar más por sus gastos diarios.

FPL está tratando de cobrar a clientes como nosotros por una variedad de proyectos que no queremos ni necesitamos. FPL no necesita gastar miles de millones de dólares para construir unidades de combustibles fósiles redundantes, reconstruir un sistema de transmisión que ya es suficiente y dar un aumento a sus accionistas.

Por favor, no anteponga el deseo de FPL de maximizar las ganancias a nuestra necesidad de alimentar nuestros hogares de manera asequible.

¡Gracias!

Sincerely,
Jimmy Meehan

CONSUMER COMMENTS
I <u>do not agree</u> with the proposed increase request by TECO. TECO has submitted
nebulous reasoning for a 20% increase in residential rates. The idea of increasing
our rates now to stabilize costs down the road is a dubious form of logic. (See
testimony of Archibald D. Collins, pg. 11, lines 1-16)
I am also suspect of TECO's increasing reliance on renewable energy, such as
solar. We have seen first hand the over-reliance of renewable energy in states
such as California and Texas. It is also unreliable during times of extreme
weather, such as the case in Texas this past winter.
