Subject: Docket # 20210034E1

Hello,

I am writing to voice my opposition to TECO's proposed egregiously high rate increase. Please do something to stop this from happening. It is not okay for them or anyone else to price gouge. Why there is not fair competition in this space I don't understand. It is my understanding they have been working on getting this increase approved since 2017, why the public only received a postcard notice about it in the past few weeks seems like a failure to disclose pertinent information in a timely manner. The general public is too busy working to pay their bills to go digging for court documents on every business that affects them. For such an essential product it seems there should be better safeguards in place to prevent consumers from being caught off guard. I hope this matter will be given the attention it deserves.

Thank you,
Tiffany Myers
