Subject: Tell the PSC Why They Need to Keep Your Power Bill Low

Dear Commissioner

The last 18 months have been devastating to most families and seniors, so much that our federal government under current AND previous administration provided income and placed a moratorium on evictions. That says A LOT about how much we are struggling just to feed and house our loved ones. FPL made a substantial profit during this same time. It's hard to believe they DESERVE any sort of increase at all when IN FACT they should be helping by decreasing rates to reduce the ongoing strain in our lives. PLEASE do not allow any increase and instead push them hard for a reduction. Any raise in rates is WRONG!

Thank you,

Gene Burgess
