Subject: Tell the PSC Why They Need to Keep Your Power Bill Low

Dear Commissioner

It is imperative that the PSC controls the rates charged by FPL. The electric company continually tells us how cheap electricity is; and yet they continually raise their rates. FPL is making billions by overcharging for their service. They refuse to improve their infrastructure until a disaster, and then they expect the customer to pay for it. FPL must learn to take smaller profits and improve their service.

Thank you,

Robert Weiner
