Dear Commissioner

It amazes me how much we give to fpl in Florida including pretty much monopoly in solar. Having lived in California where there is competition, you see many more people using solar. You also don't see a government agency allowing such a large return on equity. This has to stop. How much of the money from Florida has and will be funding their businesses in other states? Only you get to ask the hard questions and make sure Floridians aren't fleeced by their money and charm!!

Thank you,

Lois Brown
