Dear Commissioner

We need you to amend the settlement to lower rates for the consumers. Electricity is a necessary and primary resource. My father in law needs it to breath with his oxygen machine and he's a retired old man with a fixed income. FPL is a billionaire company that continues to increase their rates since there is no other choice for their customers. We can't do anything about it but you can. Please, please, please keep the rates lower.

Thank you,

Mayte Zaldivar
