Dear Commissioner

Seniors are on a fixed income, and are already paying premium prices for electric and other goods and services. It's bad enough prices are rising in all areas of what we need to purchase. Our electric bill has already risen significantly in the past year. Most people will not be able to afford these rate increases. Also, is it really necessary? FPL has a monopoly for electric services. We do not need any more increases. Please do whatever possible to keep our bills lower. It's the right thing to do.

Thank you,

Richard Andre
