**Subject:** Tell the PSC Why They Need to Keep Your Power Bill Low

Dear Commissioner

People are struggle already as it is. Single parent households who haven't even gotten the stimulus payments like me will suffer even greater. We can't handle any cost increases. It's already a struggle to stay current. Raising the cost will have more people losing and stealing power. It will also have people constantly seeking extensions that will get paid late and probably not even fully paid. Think about the people who have been hit the hardest and the communities that have been impacted the greatest. We need to keep the cost either as it is or lower the bill. We all including companies where impacted by the pandemic but we can't start just hitting customers by raising rates/costs.

Thank you,

Susan Rolle
