Dear Commissioner

You have continued to advertise that you have the lowest rates in the country. That will become obsolete with yet another rate increase. I am not only increasing the temperature in my home but reducing the use of electrical appliances. My daytime temp is set at 81 degrees and night time, on 80.

And yet my monthly bill is higher than ever. Florida is a senior citizen state with many on fixed budgets. We cannot afford any more increases. What good are all your fields of solar panels anyway????

Thank you,

Colette Jackson
