Dear Commissioner

As a single senior citizen, I can barely make ends meet with EVERYTHING increasing in price over the last year including essentials such as gas, groceries and medicine. I rent so I CANNOT install solar panels on my apartment. I already keep my thermostat at 79 degrees just so I can afford my electricity now. PLEASE do not raise our rates and send your senior citizen customers into a health crisis because we will have to raise our thermostats even higher to enable us to afford your rate increases, which is not healthy.

Thank You
