Subject: Power should not be a profit seeking adventure.

Dear Commissioner

In the present situation many homes and families are hanging on by a thread. this will only be exacerbated by the rising cost of electricity. Many of the families in florida are surviving on a Fixed income and will not be able to maintain payments given the recent inflation and COL with little additional income opportunities. Increasing power bills to ensure return on investments is robbing the poor to pay the rich on this occasion.

Thank you,

Robert Baumann
