**Subject:** Tell the PSC Why They Need to Keep Your Power Bill Low

Dear Commissioner

We are retired and on a very small fixed income. We cannot afford to have our rates increased at the same time as a pandemic is circulating. There is no way for us to earn any extra money as this disease could kill us. Please, your stock holders can do alright without this You have received donations allowing you to build a solar array that hardly cost your company anything and you are receiving payments for this electricity. Don't be greedy, please.

Thank you,

Faith Link
