Subject: Electric rate increase for FPL is a license to steal!!

Dear Commissioner

A 10.6% guaranteed return on equity is too high!
Why should FPL profit be above the industry average of 9.5%.
FPL is a regulated utility guaranteed to make a profit, even on the money they waste!
Given the recent difficult times for the consumer; a rate reduction is required. FPL profited throughout the pandemic crisis. As did the government burocrats that regulate it.
The rates should be reduced listen to the testimony of FAIR!

Thank you,

Thomas David
