Dear Commissioner

FPL's proposed settlement is not enough. It only helps the service provider make more money and hurts all of us, which I believe all on the Commission are there to actually protect. The rate increases are not necessary and continue to bring to light what is wrong with America today. Greed and uncaring interest groups just want to continue exploiting the elderly and general population to fill their pockets with yet more money. Do the right thing! Help us lower our electric bills; not raise them again and again...

Thank you,

Jesus Valdes
