Subject: Tell the PSC Why They Need to Keep Your Power Bill Low

Dear Commissioner

FPL rates are currently too high and should not be increased. Persons with limited incomes are suffering. Start relying on wind and solar power to decrease the use of electrical power. I've had 2 incidents of NO POWER in the past 30 days, one incident lasted almost 8 hours, and neither was due to storms. Fix the infrastructure instead of lining the pockets of executives.

Thank you,

Susan Porter
