Subject: Tell the PSC Why They Need to Keep Your Power Bill Low

Dear Commissioner

We are a retired couple whose main source of income is the meager social security benefits that does not take into account the increase in prescription medicine costs, new ailments as we get older and the costs of hiring help to perform duties that we used to do ourselves, among others. Our electricity bill has been steadily increasing ass we cannot replace less energy efficient appliances and cost of repairs have skyrocketed.

Thank you,

Pierre Loubeau
