Subject: Tell the PSC Why They Need to Keep Your Power Bill Low

Dear Commissioner

Increasing electric costs is putting many people at risk. We must elect to pay what over what? We can skip our meds and take them every other day and that saves a little or we can sit at home and only go out for work, buy groceries at Walmart or visit the doctor only when it's absolutely necessary.

Rasing the electric charge is a bad idea. Programs don't fix these issues, people do.

Please do not put people at greater risk than they are today.

Thank you,

Matthew Brunk
