Subject: Tell the PSC Why They Need to Keep Your Power Bill Low

Dear Commissioner

Residents of Florida consist of retirees who are trying to live on fixed incomes. Several of these residents have disabilities and high cost of medical bills and prescriptions cost. The electric rates should not be allowed to increase especially with so many solar systems being installed in our state taking the cost of electricity to be lower than the past 50 years. Do not allow the money hungry companies and their corporate staff to take food off the table of the elderly residents. Many have disabled spouses in their homes and definitely cannot afford an increase.

Thank you,

Jody Deaquinos
