Subject: Florida Citizens need gdetails and lower power bills

Dear Commissioner

For the kind of guaranteed profit on it's way to apparent approval FPL should provide concrete answers on how it intends to greatly diminish its carbon footprint and more quickly move to renewable and sustainable energy not based on oil or natural gas. Surley it has the details in a forward looking business plan. Let the public see them.

Also, FPL started its "hardening" decades late and many have already paid the price for FPL lack of hardening and poor maintenance. Noone guaranteed them a profit or to reimburse them for their business and personal losses due to FPL's shortcomongs.

Thank you,

Allen Tomlinson
