Subject: Tell the PSC Why They Need to Keep Your Power Bill Low

Dear Commissioner

(Please adhere to the Cost Reduction Program that I am enrolled in, and that I pay for) that is designed to reduce and stabilize the cost of home usage, electrically. This is especially important for me, in Pembroke Pines, because I have taught the children of P. Pines and in other locations of Broward County for the USA for almost fifty years about the Science of Conservation of our resources and I was looking forward to evoking "Climate Change" and the elimination of the toxicity in the air we breathe The resources of Planet Earth have dwindled and the studies that were being designed to modulate the cost of usage over a year's time. have been concluded. None of this has happened. Instead, I pay an average of \$500.00, monthly on a paltry pension and social security. benefits. Please lower our costs for usage and allow people, in my position , to utilize the resources that GOD gave to us, freely.
Thank You,

Thank you,

Betty McCray
