Subject: Tell the PSC Why They Need to Keep Your Power Bill Low

Dear Commissioner

Dear PSC - You are appointed to represent the interests of the consumer. That is the reason for your existence, not to protect the profits of private investors in such an absolute necessity as electrical power. It is a scandalous abuse of your responsibilities to weight your decisions toward guaranteed investor profits. Why should this be allowed? Other investors are expected to take the risks of the vicissitudes of market fluctuations. What this proposed action is doing is virtually holding for ransom a public necessity. As a consumer, I strongly object to this proposal and will inform all I come into contact with of the details of this scheme to favor private investors over the public good, and encourage them to take action as well.

Thank you,

Stephen Doll
