Dear Commissioner

I believe everyone has a right to a profit. The point of holding a monopoly is that there are agreed upon profits and the rates you are asking to charge are higher than most of your type of providers in the areas. It's time to ask for a fair rate.

Also, the fact that I don't get to have solar use it and sell it to my electric company if there is an abundance is not fair as well. Think of your consumers and remember that we haven't received that percentage of raise in pay.

Thank you,

Robert Duncan
